

JSLOOP PRIVATE LIMITED

Building Blocks To Accelerate Your Digital Transformation

Hey there!

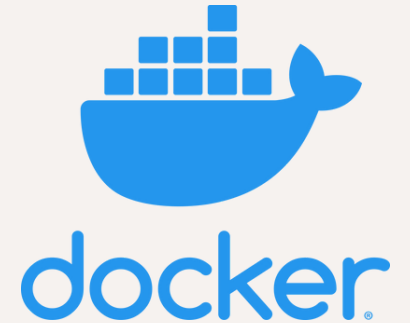

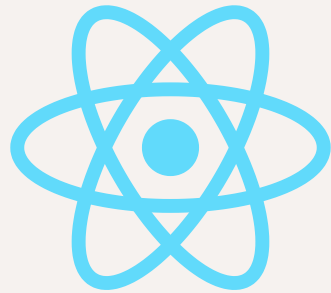

We are JSLOOP.

We automate businesses

JSLoop is a IT services and business platform company. We partner with companies from diverse industries, including pharmaceutical and home furnishing, veterinary, food services, HR Consultancy, liquor, real estate, manufacturing, home automation, salon and eCommerce. With expertise in digital transformation, emerging technologies, we offer a consulting-led, integrated suite of enterprise-grade software products, services, and solutions.

Core Technologies

Core Values

Teamwork, Collaboration & Fun
Foster a reputation of reliability and dependability

Growth
Challenge yourself every day & unleash your potential

Quality
Perfection isn't a goal, it's our standard

Trust, Transparency & Risk
Uphold fair practices & build trust

Innovation & Continuous Learning
Master a mindset of adaptive growth

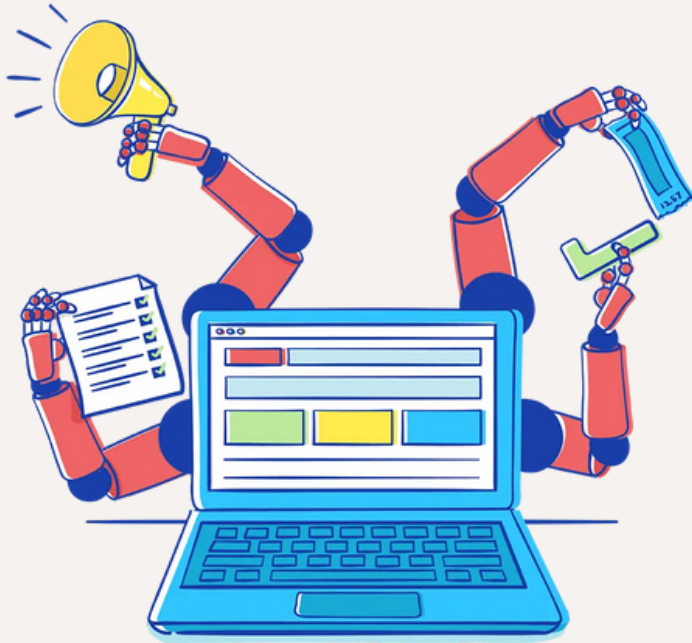

Our Story

We are a democratic software products and services company. For over 4 years as individual and company we've been actively building and sharing high quality open source products and tools.

Management

We help enterprises to manage their business in a smart way.

- Customer management
- Vendor management
- Accounts payable
- Master data management
- Procurement - Sourcing and Purchasing
- Order Capturing
- Supply chain
- Planning and control
- Manufacturing
- Project Management
- Leads
- Follow ups
- Calendar (Task, Reminder)
- Marketing
- Sales and opportunity management
- Reporting and analysis
- Service
- Feedback
- Accounting
- Financial reporting and analysis
- Ledgers, P/L Statement, Balance Sheet
- Cash flow management
- Onboarding, Time, attendance, Payroll, leaves, expenses

Automation & Reporting

Automated notifications via emails, messages and WhatsApp.

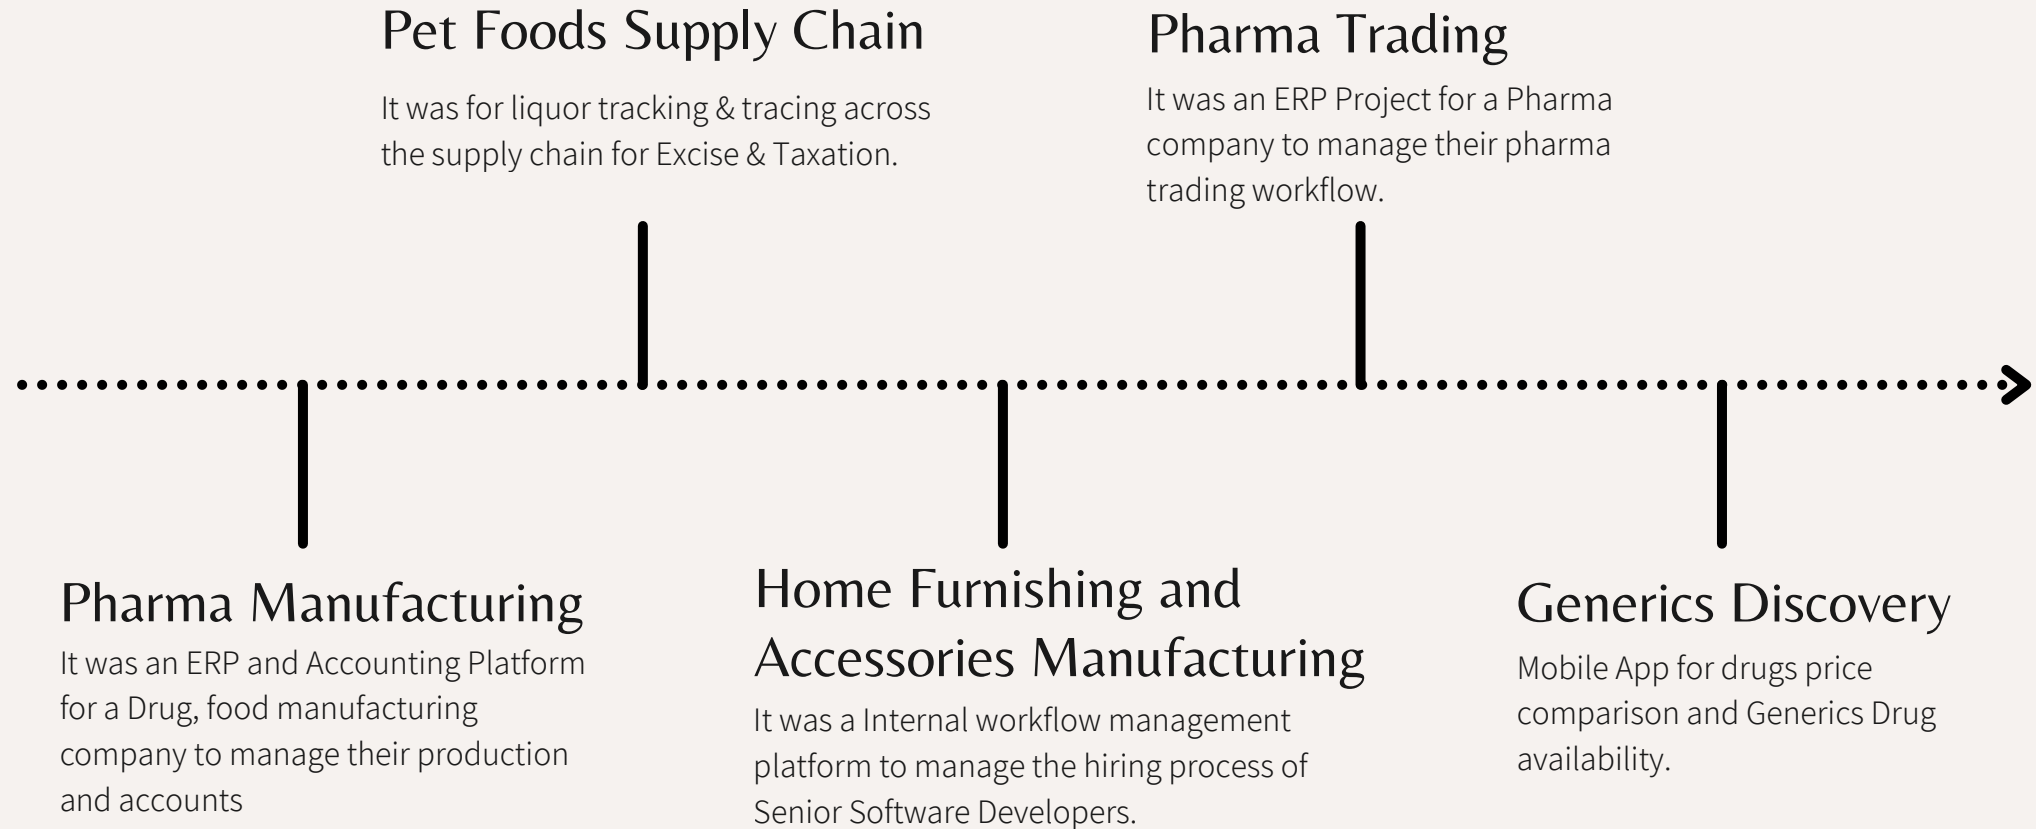

Auto assigning of leads and tasks based on different logics (Round robin logic, based on availability of user, etc.).

Interactive dashboards and reports that answer your most pressing questions. Managers can also track revenues, costs, and cash flow accurately; assess performance; and take swift corrective action.

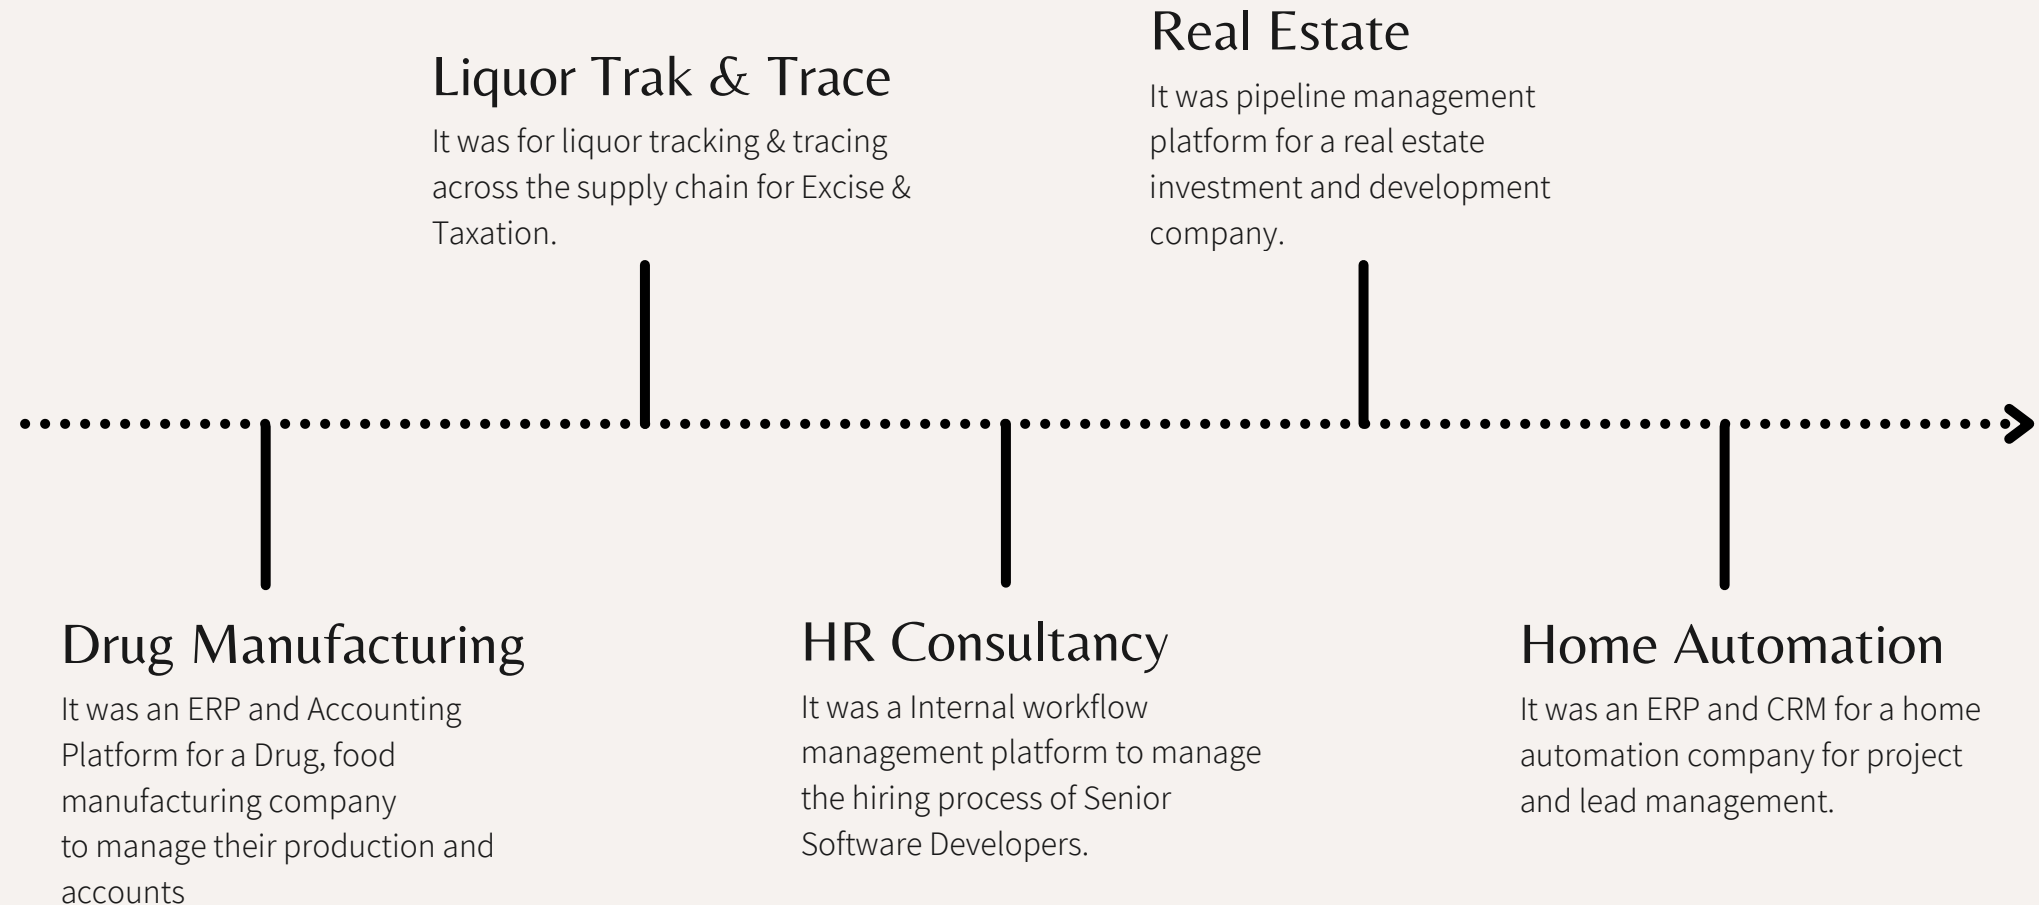

Meet customer demand and develop new revenue streams by shrinking supply chain costs, speeding time to profit, shortening cycle times, and minimizing error and rework.
